

**Bass Master Directory May 2024**

Please note this is a list of pubs that sell Draught Bass on a permanent or occasional basis. Pubs that have Bass on an occasional basis are listed in *italics*. In these uncertain times please contact pubs before going so that you're not disappointed. Pubs in bold are considered to be worthy of a place in the Top 100 Bass pubs in terms of the quality of their Bass. More nominations are welcome from people who've had a recent visit to a pub they wish to nominate. Where pubs are shown in the CAMRA WhatPub database as having Bass I have tended not to include them if the pub hasn't been surveyed in the last two years (unless I've had private reports or there is Bass information on the pub's social media). Some entries below differ from the Good Beer Guide 2023 with regard to the presence of Bass. The GBG is a great resource for cask ale drinkers but I would suggest that the list below is more up to date, due to the Bass reporters across the country. This list (and National Bass Day) couldn't have happened without Pub Curmudgeon, Retired Martin, Britain Beer Mat and Ian Webster. A virtual pint of Draught Bass to them...

Geographical Area	Pub Name	Place Name	Dispense	Source/GBG entry (may not mention Bass)

Key: H - hand pump; G - gravity; J - Jug; E - electric; P - Powered pump. If Bass is listed in WhatPub but no method of dispense is given then handpump is assumed. The aim is to concentrate on those pubs with Bass as a regular beer but see the note at the top of the list.
